

DESIGN & ENGINEERING TRAINING

Training Description

Our Autodesk AutoCAD *FastTrack* covers both fundamental and advanced topics for individuals new to or with prior AutoCAD experience. The course focuses on system layout as it relates to the robotic automation & tooling field.

Structure & Scope

Training is offered in an office/ computer lab setting and will be held by a certified instructor with current expertise. After completion of the training, the participants are able to use their skills in a design/ engineering capacity.

Summary

AutoCAD *FastTrack* will give students a good overview about the engineering drafting process, the graphic designing process and the industrial design process. The course will be mainly focused on system layout.

- Understanding the AutoCAD workspace and user interface.
- Using basic drawing, editing, and viewing tools.
- Organizing drawing objects on layers.
- Inserting reusable symbols (blocks).
- Preparing a layout to be plotted.
- Adding text, hatching, and dimensions

Prerequisites

Basic experience using computers and/or prior CAD experience

Course

A AUTOCAD

Benefits of IET Training

- Small classroom setting
- Frequent feedback
- Industry expertise
- Immediate application
- Substantial ROI

Cost

\$1,900

2-3 students/referrals = 10% Discount

4 or more students/referrals = 15% Discount

Duration & Location

- 2-4 weeks (as needed)
- Mon-Fri
- 9am-1pm or 1pm-5pm (min. 4 hrs./day)
- IET office (address below)

Registration

By phone: (248) 548-4201 Ext. 105
